

2017 Facility Project List

Follow up engineering studies **\$50,000**

The recent facility study recommended follow up studies to be conducted on 7 specific issues including BCTC masonry structural integrity, Bus Garage structural integrity, JFHS rear site drainage, GES/TJES ongoing roof leaks, FMS parking/traffic flow, and SBO Building A basement water leaks.

Bedford Elementary Parking Lot **\$47,000**

Milling and repaving the parking lots and paved play area and providing for ADA spots with signage.

Bedford Elementary Flooring **\$80,000**

Finishing the last phase (grade 4/5 classrooms) of a 3 year project to replace original carpet with VCT.

Bedford Primary Roof **\$417,000**

Replacing the EPDM roof membrane which is 4 years past its estimated life span and has shown leaks.

Bedford Science and Technology Center Security Camera System **\$57,000**

Providing exterior cameras throughout the BSTC campus.

Boonsboro Parking Lot **\$13,500**

Finishing the repaving work begun in 2016, focusing on the front parking lot.

Forest Middle Flooring **\$175,000**

Begin replacing existing original carpet and vinyl flooring with VCT. The current flooring is beyond estimated life span.

Forest Middle Roof **\$319,000**

Replacing the EPDM roof membrane which is at its estimated life span and has shown leaks, repairing a section of metal roofing, and replacing gutters and downspouts.

Goodview Parking Lot **\$32,000**

Repairing, sealing, and striping the parking lots and paved play area.

Huddleston Flooring **\$144,000**

Replacing current tile, which may contain asbestos, with VCT, replacing library carpet with VCT, and refinishing the cafeteria wood floor. Current flooring is beyond estimated life span.

Huddleston HVAC **\$306,000**

Replacing heat pumps, package units, and air handlers which are past estimated lifespan (not including boilers and other newer components).

Huddleston Parking Lot/Sidewalks

\$19,000

Repairing, sealing, and striping the parking lots and providing for ADA spots with signage and repairing and extending some sidewalks.

Jefferson Forest Security Camera System

\$135,000

Upgrading the interior and exterior high school security camera network with digital cameras and adequate recording equipment.

Liberty HVAC Loop

\$712,000

Replacing the underground piping that sends heated and chilled water to building HVAC mechanical units has had several major leaks in the past 3 years.

Moneta HVAC

\$135,000

Replacing heat pumps, package units, a fan coil unit, and a boiler which are past estimated life span.

SRMS Elevator

\$297,000

Installing a new elevator near the gym, a project that has been designed and bid at this cost.

Stewartsville Parking Lot

\$26,000

Repairing, sealing, and striping the parking lots and paved play area and providing for ADA spots with signage.

Thomas Jefferson Parking Lot

\$32,000

Repairing, sealing, and striping the parking lots and paved play area.

Total estimated cost

\$2,996,500
